

## PRAJA SEVA SAMAJ (PSS) – 2850, KADIRI Human interest story related to COVID-19

Government of India declared locked down to fight against corona virus pandemic. The unprecedented lockdown has rocked millions of poor people in the second most populous country in the world, causing many to live in fear and fear due to hunger and unemployment. They are other workers who lose their contract and lose their jobs and farmers who can no longer sell their products. Second, with curfews and other restrictions, supply lines can be turned off. Markets and buyers cannot be reached if they open stores. COVID-19 has been terrified whole India. This virus can transform form one person to another person very fastly. To stop this massive spread of corona Indian Government announced Lockdown. This lockdown condition was so new to people, they were in dilemma of how it effects human life and how to save their life's from corona virus.

In this situation, the youth who have been supported by the PSS are formerly members of the Child Club and the youth groups, who are currently work as village volunteers in Govt. sector. They wanted to serve for the public. The main reason for coming up with this idea is that they have done all kinds of services in the past in the villages being as members of Child Club and Youth Groups. In the past, they have educated the people in their villages on personal hygienic and environmental sanitation, government schemes and services.

As a part of the COVID 19 preventive and eradication measures, the youth who are working as volunteers are came forward and sensitized the villagers on COVID 19 preventive measures, importance of hand wash, maintain of social distance, masks wearing, etc., they were educating the people through door step and also created WhatsApp group for updated the information and preventive measures through some videos, which are shared by the government.

Through WhatsApp groups and cared for each person in the COVID 19 fight. Symptoms may appear 2-14 days after infection: fever, cough, wheezing, shortness of breath, chills, repetition, chills, muscle pain, headache, sore throat. COVID-19 has a wide range of reported symptoms - ranging from mild symptoms to severe illness.

Youth group members went to village campaign Door to door educated the village people and rejuvenated them for coronavirus. And. The village streets and sewage sludge were sprayed with bellowing powder and chemicals.

## Testimonials

Former enrolled child & Youth group leader Mr. Sreekanth representing from K. Kummaravandla Palli shared that **“now I am working as Village Volunteer with the motto & spirit of serving the people, which I learned when I was enrolled in PSS. I acquired skills of communication, leadership and managing skills such as I built my personality towards village development. In this situation of COVID 19, I visited each and every household, sensitizing them on preventive measures to be taken by each of them, regular wearing of masks, frequent handwashing with soap / liquid hand wash / hand sanitizer to kill the germs on their hands. I felt very proud to be served to the nation as volunteer”**.

Former enrolled child & youth group representative Ms. Aswani expressed that **“as a part of PSS awareness programs my parents understand the importance of girl child education and child rights, they provided education to upto Degree. After completion of Degree, I joined as Village Volunteer. As a Volunteer, at present I am preparing masks and distributed to all the family members in each family besides educating them on importance of wearing masks to prevent COVID attack and spreading the virus destroy chemicals with the support of sanitation people.**
